# HUSBAND

THE WIFE IS...  
CAN'T BE...  
A Note and a Telegram Active for Her from Her Husband—The Woman is Still in the City.

Yesterday afternoon a woman with a trunk and some tie-hacker's tools boarded the ferryboat at the upper ferry landing and crossed over to Paducah. She gave her name as Mrs. S. Trobough, and had an address of a Fourth street boarding house, to which she said she was going.

Her husband, Lewis Trobough, came to the landing today to come over and presumably to join her, but before he could board the boat he was nabbed by Illinois officers and taken to Golconda on some charge, the nature of which Capt. Owen did not learn.

He was allowed to write his wife a note, to be delivered to her here, but Capt. Owen, not remembering the address, could not locate her.

A telegram came for her also, but she could not be found. She is still somewhere in the city waiting for him.

## RESUMED OPERATION.

The Iron Furnace Again in Blast and Turning Out Iron.

Yesterday the management of the Paducah iron furnace resumed operation at the plant and early last evening made another run of ore. The fires in the furnace were banked a few days ago to allow the suppliers of ore to catch up with the demand, high waters in the Cumberland and the continued wet weather having thrown them behind with their work. It is now hoped that the furnace can be kept steadily at work hereafter, as the management are doing well and are turning out some exceptionally fine ore.

## Notice to Shippers.

On account of legal holiday, Wednesday, July 12th, the freight depots of the undersigned roads will not open for the transaction of business, no freight being received or delivered that day.

E. S. BURNHAM,  
Agent N. C. & St. L. Ry.  
J. T. DONOHAN,  
Agent I. C. & B. R.

Mr. George W. Baldwin, one of Paducah's oldest and best known citizens, died at 10:55 o'clock last night at his residence on Jefferson near Sixth streets, from a complication of diseases, after a lengthy illness. His condition for the past several days had been hopeless.

The deceased was born near Smithland, Livingston county, August 8, 1832, but in early manhood he lived at Carnal, Ill., where in 1850 he married Miss Mary Clayton, who survives him. He enlisted in the confederate army at the outbreak of the war, and was in the ship constructing department, having assisted in building the celebrated "Arkansas Ram" afterwards destroyed at Vicksburg.

After the war he came to Paducah and lived the place so well he located here and became a building contractor, and until a few years ago owned and operated a brickyard on North Sixth street.

Mr. Baldwin did not seem to care much for public life, but served two terms in the council from the First ward.

The deceased leaves a wife, one daughter, Mrs. R. J. Settle, two sons, Messrs. James Baldwin, of the city, and John O. Baldwin, of Cairo, as well as two sisters who reside in Illinois, and a grand daughter, Miss Charlie Belle Baldwin, of Hopkinsville.

He was a Mason, Knight Templar and past dictator of Washington Lodge, Knights of Honor.

The funeral will take place tomorrow morning at 10 o'clock from the residence of his daughter, Mrs. R. J. Settle, on Jefferson street, interment at Oak Grove. The services will be conducted by Rev. W. H. Pinkerton, of the First Christian church. The burial will be under the auspices of the Masons.

## Practitioners of Osteopathy.

Mrs. Durham is a young woman of high standing in her profession, being a graduate of the Southern School of Osteopathy. Dr. Breedlove is a leading practitioner and a gentleman of much reputation also.

Dr. Breedlove and Dr. Durham come to the city most highly recommended and will no doubt find cordial welcome.

## DEFINITE

WHICH IS NOT OLD CAN BE TOLD OF THE BIG COVENTION.

## A RED HOT TOWN AND BODY

The Air is Full of Rumors and Conjectures as to Booms for the Second Place, But They Are Wind.

## BRYAN IS TO BE DEN BOSS MANAGER.

KANSAS CITY, Mo., July 3.—Ex-Governor Hill is back from his visit to Lincoln but will say nothing as to the force and effect of his talk with Bryan. There is however a greater boom for the New Yorker for second place and he would be a strong aspirant if he would consent to the use of his name, which up to now he has refused to do.

The discussion of the silver question by the monetary league yesterday showed much diversity of opinion as to what the convention should do. General Warner, the father of the silver cause, said too much stress was being laid on the ratio, but "Coin" Harvey thought to the contrary. The Governor, John predicted a heavy loss of votes if the convention did not declare specifically for the old ratio of 16 to 1. The league had an other meeting this forenoon in times to a talk by General Warner on the currency bill. The league has formulated an address to be read to the convention and has also prepared a platform for them to use.

There is no positive knowledge as to what the platform will be. There are reports that the speech and demands of Bryan has no high in authority. It is doing the talking and what the convention may determine is a matter clear, few pretty well settled however that the question of silver will be settled in the room of the platform committee and not in the convention hall.

The New York Herald Tribune is pushing Daniel O. Sullivan.

There is an appearance of intention to change the original program of the convention routine by nominating Bryan tomorrow, and finishing the program later on. This however can be done if Bryan will consent, so strong is the idea and so well has he the body in hand.

Carter Harrison declares he is not a candidate for the vice presidency and is for an eastern man.

Ex-Congressman Shively is out of the vice presidential selection. He declares he does not want the place.

Snider and Towne seem to think they are high among those whom lightning may strike.

Croker says Tammany is for the ticket and the platform, no matter the decision in either instance.

KANSAS CITY, Mo., July 3.—The town and the delegates to the National convention have sweltered in salamander heat since morning. Only a faint breeze prevents much suffering. It is truly a red hot day and a red hot crowd.

Though the hotels are full and overflowing the crowd continues to increase. The streets will have to entertain many tonight unless their is unexpected relief from some source not now visible.

It is declared as settled that Bryan is to have his way with the platform committee. What he says will surely do.

Towne's chances for the vice presidency are brightening. He has from some cause not quite clear taken on healthy boom.

Though there is much to interest the delegates are anxious for tomorrow and the hour of high noon, when the convention gathers.

KANSAS CITY, Mo., July 3.—The National committee did not carry out the understanding of yesterday and select Mayor Rose, of Milwaukee, for temporary chairman. The selection of the committee is Governor Thomas, of Colorado. The committee also seated the Clark delegation from Montana, which is quite a frost to the opposition to the senator.

Many new Towne boomers are appearing this afternoon. There is a determination to flood the city with his supporters. All are offering to be his favorite.

BRYAN IS TO BE DEN BOSS MANAGER.

### REPUBLICAN TICKET.

For President.  
WILLIAM MCKINLEY,  
Of Ohio.  
For Vice President.  
THEODORE ROOSEVELT,  
Of New York.

Bryan's hand is at the helm say all  
reports from Kansas City

It having been established that the  
German minister to China has been  
murdered the country now looks to  
Germany for a declaration of war. In  
other respects conditions in the Flow-  
ery Kingdom grow worse day by day.

Kansas City is the hub of the great  
prosperity belt. The Kansas and Mis-  
souri farmers never were so prosperous  
it is not an ideal place for a calamity  
gathering

In declaring for the repeal of the  
Goebel law, the Hon. Jo Blackburn  
makes a vicious kick at the ladder  
which enabled him to secure a re-  
election to the United States senate.

Is it not about time some one was  
resigning from the election commission  
in this county? At least one of the  
occupants of a place on this board is a  
state office holder and is therefore  
ineligible.

If the gang has its way Beckham  
will be nominated for governor by the  
so-called Democratic convention. And  
it does appear as if the better element  
of the party proposes to remain away  
from the county conventions and let  
the gang get what they want and re-  
ceive it in the neck in November.  
There was always more than one way  
to kill a snake and it seems the good  
Democrats haven't forgotten this fact.

While all the appropriations made  
during the last session of congress were  
\$24,000,000 larger than in 1899, it  
should be remembered that nine mil-  
lions will be expended in taking the  
census and upwards of seventeen mil-  
lions will be used for improving the  
postal service, while another seven  
millions will be spent in increasing our  
navy. In other directions there  
has been an actual decrease in the ap-  
propriations.

The party that constantly endeavors  
to drag foreign questions into a presi-  
dential campaign is naturally afraid  
of its domestic record.

A Republican victory in Nebraska  
this year would be a fitting climax  
for the Democratic campaign on false  
issues.

The Hon. John R. McLean has re-  
turned from Ohio politics and sailed for  
Europe. Mr. McLean's experience  
with the Ohio voters was anything but  
encouraging.

Governor Beckham has gone to the  
Kansas City convention. He hopes, no  
doubt to secure recognition there, to  
offset the distinction shown Governor  
Taylor at Philadelphia.

Democrats are trying to make the  
farmers discontented because they are  
paying a little more money this year  
for their wire nails and wire fencing.  
Of course they never point out to the  
farmers that his extra profit this year  
on two or three bushels of corn will  
pay for any increase in the price of a  
keg of nails, and that his profits on all  
his farm products in this year alone  
will pay for many times the cost of his  
barbed wire, besides leaving him a  
handsome surplus to put in bank or  
pay off his mortgage.

The fact that the liabilities of  
banks that failed in the last two years  
averaged nearly \$30,000,000 less than  
the annual liabilities of the banks that  
failed during President Cleveland's  
term will probably be used by the  
Democrats as an argument to put them  
in power again, so that they can smash  
the capitalist once more. But the  
people won't be fooled this way; they  
prefer no panics and no runs on the  
banks, as they would rather have their  
money safe in sound institutions.

The would-be nominees  
may find a hill in  
political poverty.

For several months the sub-  
ject of the Goebel law has been  
considered almost a settled  
question. The presidential contest  
of Kentucky, the house of  
the enlarged privileges bestowed  
it by the Tacker act, and either reverse  
the result from that state if it be fa-  
vorable to Bryan or throw out the  
vote altogether. Some of the most  
loyal and broad-minded Democrats in  
the bluegrass state have been boldly  
urging the repeal of the Goebel law.  
They realize that if the Republicans  
need the thirteen electoral votes of  
Kentucky they will get them by hook  
or crook. Why, in view of such a  
prospect, the Democrats of Kentucky  
should hesitate to insist upon Governor  
Beckham calling the legislature to-  
gether for the repeal or material modifi-  
cation of the Goebel law cannot be  
understood by earnest party workers  
in this region.

What more need be said as proof  
of fear and not righteousness on the part  
of the Democrats?

### RAILROAD NOTES

#### NEW NIGHT YARD MASTER AP- POINTED YESTERDAY.

Chief Dispatcher Allen Jorgensen Has Re-  
turned Home—Railroaders Want  
a Picnic.

Conductor Dugan is off on account  
of his mother's death at Louisville.

Chief Dispatcher Allen Jorgensen  
has returned from Boston.

Mrs. Mary Bennett, formerly stenog-  
rapher in Berry & Harrison's law office,  
has accepted the position of stenog-  
rapher for General Yardmaster W. L.  
Sarran, of the Illinois Central

Mr. W. B. Carney, until recently  
foreman of one of the switch engines,  
has been appointed night yardmaster  
to succeed Mr. J. S. Taylor, trans-  
ferred.

Mr. W. W. Sloan, late of Greenville,  
is agent at Kuttawa, succeeding For-  
mer Agent Sizemore, resigned.

Mr. Charles Richardson, one of the  
clerks in the Illinois Central freight  
department, had a foot painfully  
mashed by a wagon Saturday afternoon.

The big pond near the new Illinois  
Central depot has been drained into  
Island creek. Thousands of fish were  
caught by men and boys as the water  
became shallow. The draining of the  
lake consumed two weeks.

The employees of the Illinois Central  
shops here desire to have a big basket  
picnic. It will be given at Kuttawa  
Springs between the 24th and 28th of  
the month. As yet the committee has  
not decided upon any certain time for  
having the outing. The date will be  
entirely at the disposal of the trans-  
portation department of the I. C.  
About 1200 persons are expected to  
attend the picnic from this city. A  
committee composed of the following  
has been appointed to confer with the  
officials: Emile Goureaux, chairman,  
of the car building department; Charles  
G. Morris, secretary of the master me-  
chanic's office; J. C. Martin, paint de-  
partment; George Bonduant, planing  
mill department; Charles Meyers, tin-  
ner's shop, and Foreman W. C. Scho-  
field, of the blacksmith department.  
About \$200 has been raised to defray  
the expenses of special trains, etc.

The Antiquity of Beds.  
Beds were unknown among the an-  
cients, who slept on the floor or on a  
divan covered with skins. It was in  
the middle ages that beds first became  
common, being made of rushes, leather  
or straw. It is supposed that feather  
beds were known to the Romans, since  
men are reviled by one of the Latin  
poets for their luxury in sleeping upon  
"feathers." Heliogabalus, the most  
effeminate of the Roman emperors, pos-  
sessed an air cushion and an air mat-  
tress as early as A. D. 210. In Eng-  
land the better classes began to use  
feather beds for the first time during  
the reign of Henry VIII., and in cer-  
tain districts of Holland and Germany  
bedsteads are still fitted as they were  
then, with two feather beds; upon one  
the sleeper lies, the other being used  
for covering. The Russian peasant  
places his bed on the top of the oven  
for the sake of the warmth given out  
by the fire.—Philadelphia Times.

### Learn to Grow Old Gracefully.

There is a most admirable lesson  
contained in the following extract from  
Hannah More's "Strictures on the Mod-  
ern System of Female Education."  
"Since, then, there is a season when  
the youthful must cease to be young,  
and the beautiful to excite admiration,  
to learn to grow old gracefully is, per-  
haps, one of the rarest and most beau-  
tiful acts that can be taught to woman.  
And it must be confessed it is a most  
severe trial for those women to lay  
down their beauty, who have nothing  
else to take up. It is for this sober re-  
sult of life that education should lay up  
its rich resources. However disre-  
garded they may have been, they will  
be wanted now. When admirers fall  
away and flatterers become mute, the  
mind will be driven to retire within it-  
self; and if it finds no entertainment at  
home, it will be driven back again  
upon the world, with increased force.  
Yet, forgetting this, do we not seem  
to educate our daughters exclusively  
for the transient period of youth, when  
it is to mature life we ought to advert?  
Do we not educate for a crowd, forget-  
ting that they are to live at home—for  
a crowd, and not for use—for time, and  
not for notoriety?"

### Found Valuable Papyrus.

Buried under rubbish and debris of  
fallen houses and temples two mem-  
bers of the Egyptian exploration party  
have found valuable papyrus and objects  
of domestic use preserved from the  
ancient and famous classic Greek  
town in Egypt, Oxyrhynchus. Among  
them is this petition for alimony:  
"To Heracles, priest, chief justice  
and superintendent of Chrammatiae  
and other courts, from Syra, daughter  
of Theon—married Saraphion, bring-  
ing him by cession a dowry amounting  
to 200 drachmae of silver. As he had  
no means of his own at all, I received  
him into my parents' house, and I, for  
my part, conducted myself blamelessly  
in all respects. But Saraphion, having  
squandered my dowry as he pleased,  
was constantly ill-treating me and in-  
sulting me, and using violence to-  
wards me, and having reduced me to  
poverty, he finally deserted me, leav-  
ing me in a destitute condition. There-  
fore, I beg you that he be compelled  
to support me."

The famous Kinross Viaduct, near

object of curiosity for sightseers, is  
to be replaced by a wholly differ-  
ent structure. The bridge is 301 feet

the highest bridge in the world. The  
Kinross spans the Truysers in the south  
France, is 1,849 feet long and at the  
highest point the rail level is 401 feet  
above the river. It was designed by M.  
Hefel, builder of the famous tower, and  
was completed in 1884. The Kinross  
bridge is 2,060 feet long. The valley

The formula is plainly printed on every bottle—hence you

do not advertise their formula knowing that you would not buy  
their medicine if you knew what it contained. Grove's contains

malaria out of the system. Any reliable druggist will tell you that  
Grove's is the Original and that all other so-called Tasteless  
Chill Tonics are imitations. An analysis of other chill tonics shows  
that Grove's is superior to all others in every respect. You  
are not experimenting when you take Grove's—its superiority

only Chill Tonic that cures entire malarial sections of  
the body.

As a rule a man who can wait pa-

do, and say they should give more.  
We are tired of being bluffed into si-

the latest book. We are also tired of  
the air of pity that follows when we  
admit that we have not only not read  
it, but hadn't heard of it before. There  
is surely something more to living than  
to be up at daylight to read the newest  
book published during the night. Do  
people no longer read good books, or  
is it only new books that are read—
